Conclusions

Problems

- Job hunting in Japan is unique compared to other countries
- Typically these seminars are held in Japanese, which serve as a challenge to international students looking for a job in Japan
- Career-seeking foreigners are having a hard time comprehending the process
- Students cannot take advantage of many opportunities that Japan offers

Idea

- Career seminars in Doshisha University aimed towards international students could be essential for their endeavors

Objective

To conduct English-based career seminars oriented to international students of the ISTC course as well as Japanese students at Doshisha University, which focus on the basic skills required for career development

Method

Planning

Invitation

Execution

Soliciting advice from university representatives

Inviting outside speakers through personal meetings

Preparing and conducting seminars

Soliciting advice from university representatives

Meetings held with Doshisha University Career center

- Goals were ratified
- Recommendations for speakers were provided
- Surveys were performed beforehand to assess students' knowledge and interest

If no, are you interested in learning more about the job-hunting process in Japan?

39 responses

Result of KTA Survey

質問1 どこで今回のイベントを知りましたか？

質問2 本日のイベントは総合的に満足いただけましたか？

Seminars were known via a friend/KTA Website

Most of the students are satisfied with the seminar contents

質問4 サポートメンバーの活動に興味がありますか？

ISTC students are interested mainly in networking and career support

Some ISTC students are interested in external support

Achievements

1. Acquisition of competencies

Global Vision - inclusion of international students in the larger market

Respect for Diversity - adoption and utilization of various perspectives

Intercultural Understanding – Learned professionalism and knowledge of procedures

Achievements, cont.

2. Gained real-life skills

To step forward – through personal invitation and risk acceptance

To think through – via brainstorming and strategizing (costs, scheduling, etc.) [Project total cost < 25000 yen]

To work in a team – through online and personal communication, consideration of others' suggestions

Impact

Spread job hunting information in a common language

Establishment of a fully partner organization in Doshisha University (KTA)

Consultation from people who has experience in these topics and who can provide specific information

Be part of the Japanese society

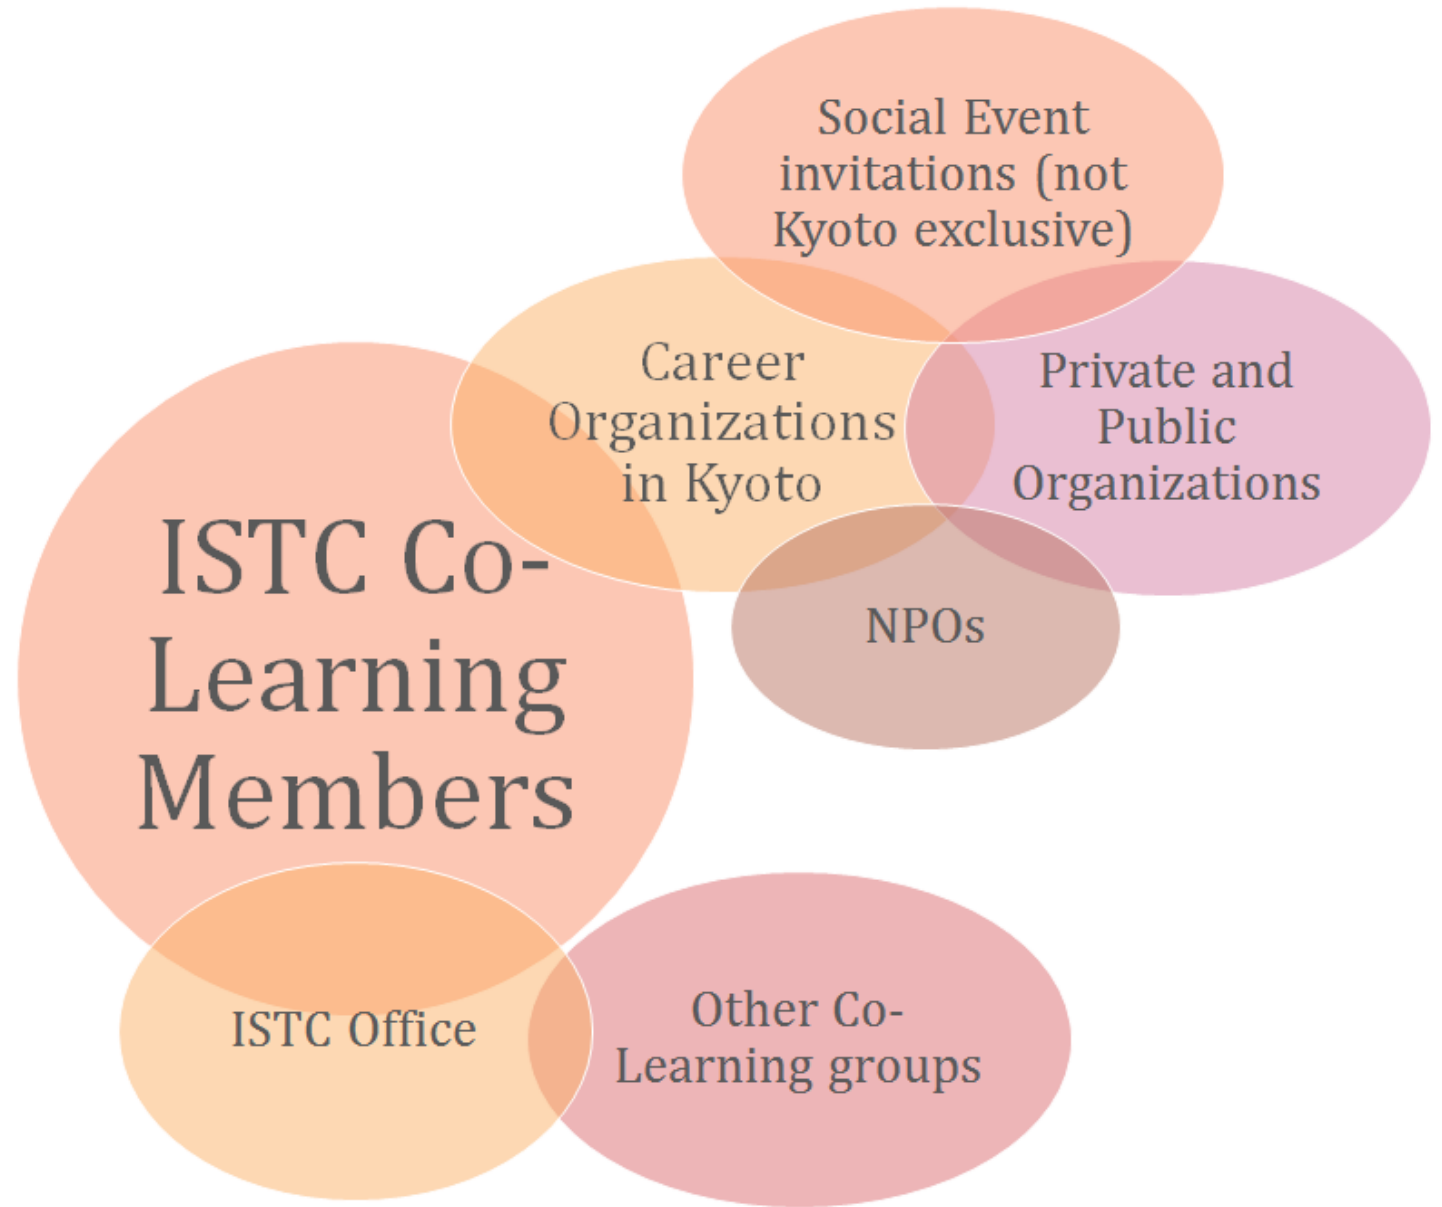

Ripple Effect

Ripple Effect

講師に迎え、困ったことやアドバイスを英語で話してもらおう予定だ。自身も、SNS上で履歴書を開示する海外のスタイルと違い、日本は「手書きの履歴書」が必須と知り、驚いた。「留学生にとって知らないことばかりなのに、気軽に相談できる場が無い」と痛感したのが活動のきっかけだ。
