Component of the video

ISTC course class

School
cafeteria(Japanese food)

Introduction of
laboratories and research
content

Component of the video

Difficulties through the Program

- Grasp situations
- Intercultural understanding
- Difficulty of making a video from the beginning

Acquirement of Competencies through the Project

Overcoming difficulties

Importance of finding the best plan

Importance of courage to quit

Importance of listening to someone's advice

Importance of thinking about the other person's position

Acquirement of Competencies through the Project

Ability to detect issues

Future expected results

Appeal to international students

Reduce the anxiety of foreign students

- Post the pamphlet in university pages
- Post the QR code in the pamphlet

What we achieved in the program

- University-wide project implementation despite limited time
- Closer collaboration with university offices
- Cooperate with companies outside the university

Improving the experience of future
international students at Doshisha University
